Financial Assistance Program

The Financial Assistance program is offered to qualifying patients that meet the program's eligibility criteria and are unable to pay for their care through the other financial options available (listed above). The procedure includes an application process, in which the patient or the patient's guarantor is required to supply personal, financial, and other documentation necessary to make a determination of financial need.

Eligibility for the Financial Assistance Program is determined based on an individual's gross household income at or below 225% of the Federal Poverty Level Guidelines and other criteria set forth under the Advanced Financial Assistance Policy. When determining a patient's eligibility, Advanced does not take into account race, gender, age, sexual orientation, religious affiliation, or immigrant status.

Federal Poverty Level Guidelines can be found online at:
